

FIBER OPTIC UPGRADABLE PATCH PANEL 19" (FP-08/12/16/24/48-KIT)

Fiber Optic Patch Panel FP-8/12/16/24-KIT is low profile panel (1U) upgradeable from 8 to 24 connectors. Is made from high quality steel, beige colored. Includes 19" rack mount to simplify installation on site. FP-KIT-48 is a 2U panel for 48 connectors.

All panels are easily accessible allowing technicians to place fiber splice organizers. Both front and top faces can be taken apart to allow easy access.

Special design allows upgrade from 8 to 12 to 16 or 24 changing only the front panels. This keeps cost at minimum level since up to 4 cables of 20mm diameter can be accommodated in the same panel for future needs.

Includes special mount for splice organizer trays and cables glands to maintain minimum cable bend.

Available as KIT including all necessary components for installation as well as loaded with adaptors to meet customers demand.
